October 29, 2012

Members of the Board of Education
Johnston Community School District
Johnston, Iowa

We are pleased to submit the Comprehensive Annual Financial Report (CAFR) for the Johnston Community School District for the fiscal year ended June 30, 2012. The report has been prepared to conform to guidelines recommended by the Association of School Business Officials (ASBO) International and the Government Finance Officers Association (GFOA) of the United States and Canada.

Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the District. To the best of our knowledge and belief, the enclosed information is fairly stated in all material respects and is presented in a manner which sets forth the financial position and results of operations of the various funds of the District in accordance with generally accepted accounting principles, (GAAP). It includes all District funds. All disclosures necessary to enable a reader to gain maximum understanding of the District's financial activities have been included.

The 2012 Comprehensive Annual Financial Report is presented in four sections: Introductory, Financial, Statistical and Single Audit Compliance. The Introductory Section includes a transmittal letter, the District's organizational chart, a list of District officials, and the 2011 Certificate of Achievement for Excellence in Financial Reporting presented by the Government Finance Officers Association and the Association of School Business Officials.

The financial section consists of the independent auditor's report, Management's Discussion and Analysis, audited basic financial statements, required supplemental information, and combining and individual fund statements and schedules. The audited basic financial statements present both an overview and a broad long-term perspective of the School District as a whole in the government-wide financial statements. The Management's Discussion and Analysis presents financial highlights and information.

The Statistical Section sets forth selected unaudited financial and demographic information, and is divided into five categories including financial trends, revenue capacity, debt capacity, demographic and economic information, and operating information generally presented on a multi-year basis.

The District is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act Amendments of 1996 and the U.S. Office of Management and Budget Circular A-133, Audits of State, Local Governments, and Non-Profit Organizations. This section contains all necessary schedules and auditor's reports required for the District to comply with these regulations.

Management's Discussion and Analysis (MD&A) immediately follows the independent auditor's report and provides a narrative overview of the basic financial statement. The letter of transmittal is designed to complement the MD&A and should be read in conjunction with it.

Reporting Entity

This report includes all entities or organizations that are required to be included in the District's reporting entity. The District is a separate reporting entity and is not included in any other reporting entity. A seven-member elected Board of Directors, serving staggered terms of four years, governs the Johnston Community School District. The Board of Directors is a policy-making and planning body whose decisions are carried out by school administrators. The District is subject to the general oversight of the Iowa Department of Education. This oversight generally includes an approval process that reviews compliance to standards enacted by legislative mandate.

The Johnston Community School District is located in the northwest part of Polk County and is one of the faster growing suburbs of Des Moines, Iowa. The District is the 14th largest of Iowa's 351 public school systems. The enrollment is approximately 6,148 students. The District provides a full range of educational services appropriate to students in early childhood, preschool, transitional kindergarten, and grades kindergarten through twelve. These services include basic, regular and enriched academic education; special education for children with special needs; vocational education; and numerous individualized programs such as specialized instruction for students at-risk and for limited-English-speaking students.

In addition to the elementary, middle school and high school programs offered in the District, there are additional opportunities for achieving success. Students attend METRO West, an alternative school for students who function better in a less-structured environment. Students may also attend the Central Academy that affords additional opportunities for a greater breadth of classes.

The District serves these students in one high school, two middle schools and five elementary schools. All of these buildings are either new or remodeled in the past 25 years.

Economic Condition and Outlook

The District is located in the central part of the state, within the larger Des Moines metropolitan area and ranks as one of the top growth areas of the country. The economic condition and outlook of the District have remained strong during the past ten years, and as a result, the District has experienced tremendous growth over the past several years. This growth has had a positive effect on employment and the District's tax base. The District has averaged 7.6% annual increase in the tax base over the past ten years, and experienced a 5.9% increase in 2012. The District also expects continued enrollment growth during the foreseeable future. The district's enrollment growth has averaged 3.6% annually over the last ten years. While the District has seen annual certified enrollment increases slow down from an average increase of 188 students during the last ten years to an average of 126 students during the last five years, the District is still projected to grow over the next ten years. The District utilizes a demographer to assist with enrollment projections.

Based on conservative projections, this trend is expected to continue well into the next decade. While having a positive impact, the growth also presents significant challenges for the District. The District utilizes the optional instructional support levy at a level deemed appropriate and will need to continue a high level of efficient use of human resources and facilities.

Retail sales, building permits, and population increases in the western suburbs have generally exceeded that of any other location in the metropolitan area or in the State of Iowa. These increases are expected to continue if economic conditions remain stable.

In recent years, the state of Iowa has faced an economic downturn that severely hampered its ability to fund schools at the same level as in prior years. The District has faced inadequate funding for state aid and other state-funded programs, and this was particularly demonstrated in the unprecedented 10% across the board state funding cut fall 2009, the low 2% allowable growth for fiscal year 2011, and the unprecedented zero per cent allowable growth for fiscal year 2012.

Major Initiatives

It is projected that the district will continue to grow for the foreseeable future with growth topping out at 6,800-7,510 students. The remaining construction for the Lawson Elementary addition/renovation project was completed in fiscal year 2012 for a total project cost of \$4.4 million with approximately \$3 million being funded with general obligation funds in the previous year and the remainder with sales tax funding. The major part of completion in fiscal 2012 was the cafeteria renovation. The Summit Middle School addition was also completed this fiscal year at a cost of \$1.7 million funded with sales tax revenues. In addition, there was a land purchase for approximately 125 acres at a cost of \$5.7 million which was also funded with the sales tax fund.

Long-Term Financial Planning

Unassigned fund balance in the general fund improved fiscal year 2012 by approximately \$1.4 million due to the cash reserve levied by the Board of Education to improve fund balances and financial solvency for fiscal 2012 offset by zero allowable growth funding and timing of science adoption expenses. It was determined by the Board to go forward with the science adoption in fiscal 2011 that had been originally deferred when the federal ed jobs funding was received. That federal funding was used to save positions which freed up other funds to be used for the adoption; however the actual expenses for the adoption were split between both fiscal 2011 and 2012 due to timing of receiving textbooks in the summer. This increase in fund balance increased our solvency ratio from 8.1% to 10.5% which is extremely important to meet unforeseen financing requirements and to obtain higher bond ratings as the District determines its facility needs for the future with bonding. The District has a targeted 5-15% financial solvency ratio with 10% being a minimum goal in its Fiscal Management Policy, so this improvement in financial condition places the District within that target.

The State of Iowa has implemented lower allowable growth, mid-year budget reductions in past years, and not provided on time funding over the last several years. With a growing district like Johnston, funds need to be built up to help cover expenses of increased enrollments since funding is not received until the subsequent year. With over 80% of the District's resources required for salaries and benefits, staffing efficiencies will become a priority.

Relevant Financial Policies

Since the funding formula is pupil driven, an increase in total spending authority occurs by increasing the number of pupils or by increasing the cost per pupil. The cost per pupil can be increased by the legislature in setting the amount of allowable growth each year. Under the law, the legislature has thirty (30) days after receiving the governor's budget recommendation to set the state percent of growth for the year following the budget year. Legislature spring 2009 set the fiscal year 2010-2011 state percent of growth. However, in the spring of 2010, the statutory requirement to establish the percentage of allowable growth increase for K-12 schools and accompanying educational funding categories for the 2011-12 school year was delayed for one year. In the spring of 2011, zero percent allowable growth was determined for fiscal year 2011-12 and two percent allowable growth for fiscal 2012-2013. However, legislature spring 2012 once again failed to set allowable growth for fiscal year 2013-2014. Allowable growth is crucial in funding the needs of our growing district.

Internal Control

Management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met.

The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the evaluation of costs and benefits requires estimates and judgments by management. All internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

As a recipient of federal, state and local financial assistance, the District is also responsible for ensuring that adequate internal control is in place to ensure compliance with applicable laws and regulations related to those programs. As a part of the District's single audit, described earlier, tests are made to determine the adequacy of internal control, including that portion related to federal awards programs, as well as to determine that the District has complied with applicable laws and regulations.

Budgetary Controls

In addition, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual budget approved by the District's governing body. Activities of the General Fund, Special Revenue Funds, Enterprise Fund, Debt Service Fund and Capital Projects Fund are included in the annual budget. The level of budgetary control (that is, the level at which expenditures cannot legally exceed the budgeted amount) is established by function and encompasses all fund types. To facilitate the monitoring of the legal provisions, and to provide more complete information to interested parties, the District prepares a more detailed budget for each fund. The District also maintains an encumbrance accounting system as one technique of accomplishing budgetary control.

As demonstrated by the statements and schedules included in the Management's Discussion and Analysis included in the financial section of this report, the District continues to meet its responsibility for sound financial management.

Risk Management

The District carries general liability and auto coverage, property insurance, errors and omission coverage, and excess umbrella coverage. In addition, the District manages a self-funded workers' compensation plan that is also supplemented by excess workers' compensation coverage. The District manages a self-funded insurance plan for its employee medical and dental insurance programs.

Cash Management

Cash temporarily idle during the year was invested in Iowa School Joint Investment Trust and money market accounts. In addition, banking services were bid in the spring of 2009 resulting in substantial monthly fee savings.

Independent Audit

The Code of the State of Iowa requires an annual audit of the District to be performed by an accounting firm selected in a competitively bid process. The annual audit meets the requirements of the Code of Iowa, generally accepted auditing standards and the requirements of the 1996 Amendment to the Single Audit Act, and related OMB Circular A-133. The auditor's report on the general-purpose financial statements and combining and individual fund statements is included in the financial section of this report.

The auditor's reports related specifically to the single audit are included in a separate section for internal controls and compliance.

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Johnston Community School District for its comprehensive annual financial report for the fiscal year ended June 30, 2011. The Certificate of Achievement is the highest form of recognition for excellence in state and local financial reporting. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

The District also received the Certificate of Excellence in Financial Reporting from the Association of School Business Officials (ASBO) upon recommendation of the Association's Panel of Review, which has judged that the report substantially conforms to principles and standards of ASBO's Certificate of Excellence Program. A certificate is valid for a period of one year, and we are submitting this report to ASBO to determine its eligibility for another certificate.

Acknowledgements

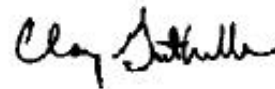

The preparation of this report could not be accomplished without the efficient and dedicated services of the entire central administrative support staff and our auditors, Van Maanen, Sietstra & Meyer, PC. Finally, we would like to thank the Board of Education for their continued interest and support in conducting the financial operations of the District in a most responsible and progressive manner.

We are pleased to present this report of the results of the District's financial operation for the fiscal year ended June 30, 2012. It is our hope that study and review of this report will provide a better understanding of the District's financial operation for the District patrons.

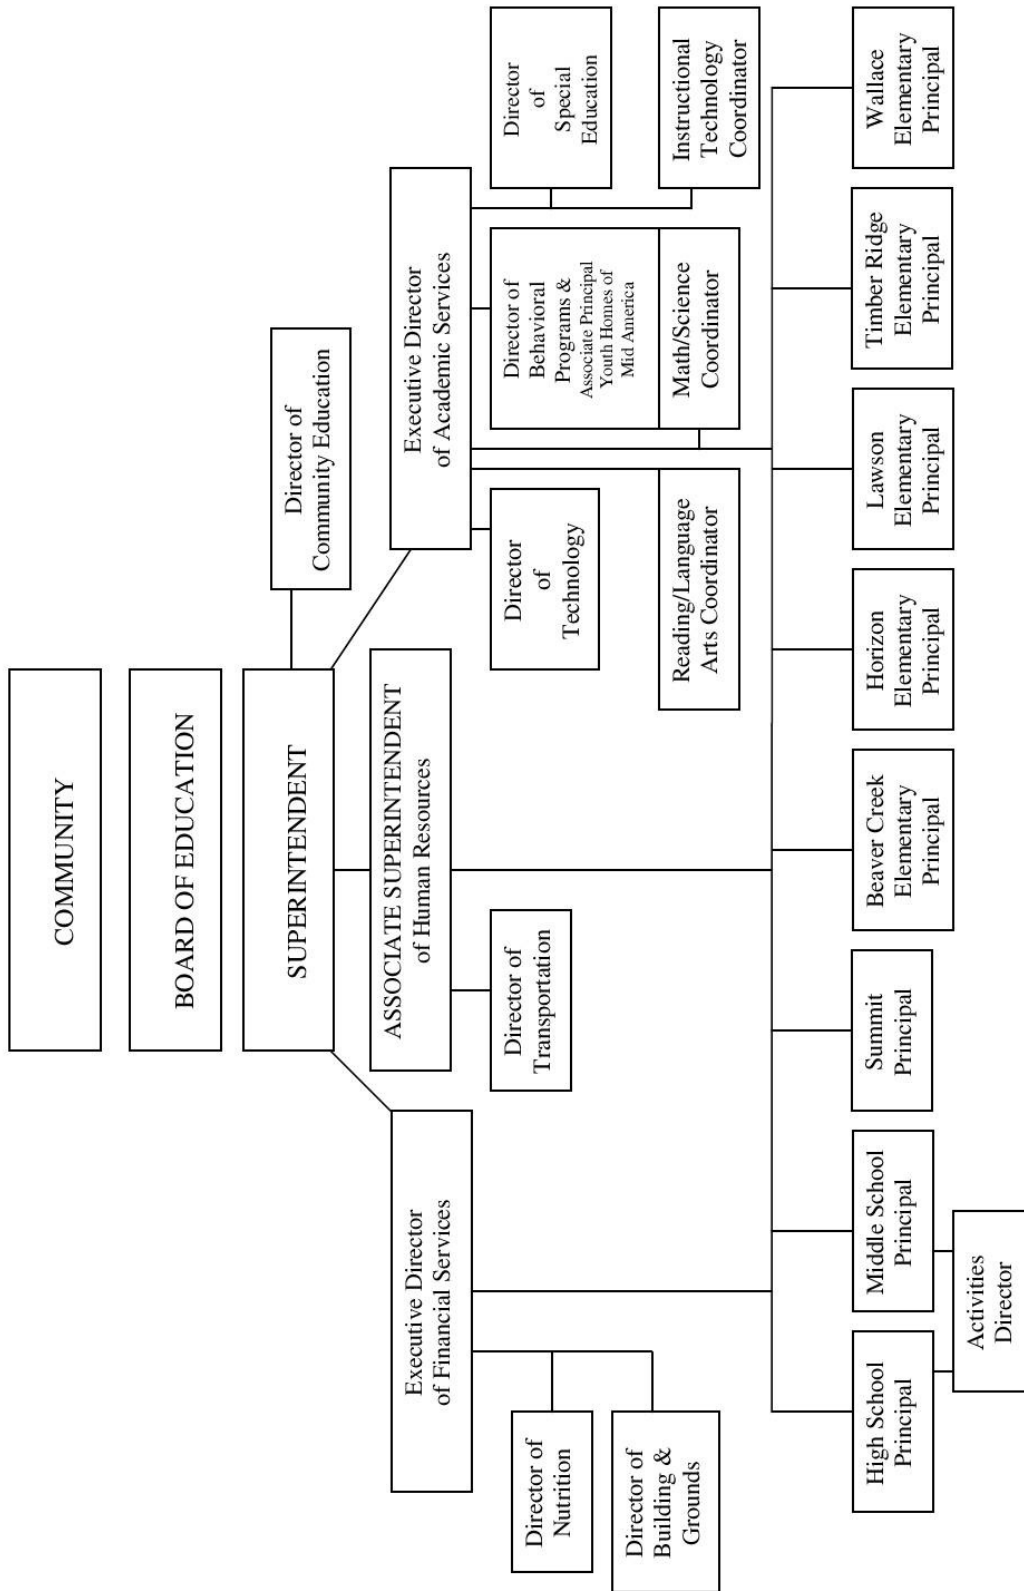

Respectfully submitted,

Jan Miller-Hook

CERTIFIED PUBLIC ACCOUNTANTS

Independent Auditor's Report

To the Board of Education
Johnston Community School District
Johnston, Iowa

We have audited the accompanying financial statements of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of Johnston Community School District, Johnston, Iowa, as of and for the year ended June 30, 2012, which collectively comprise the District's basic financial statements listed in the table of contents. These financial statements are the responsibility of District officials. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of Johnston Community School District at June 30, 2012, and the respective changes in financial position and cash flows, where applicable, for the year then ended in conformity with U.S. generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we have also issued our report dated October 29, 2012 on our consideration of Johnston Community School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

U.S. generally accepted accounting principles require Management's Discussion and Analysis, Budgetary Comparison Information and the Schedule of Funding Progress for the Retiree Health Plan on pages 11 through 19 and 50 through 52 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board which considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with U.S. generally accepted auditing standards, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the required supplementary information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Johnston Community School District's basic financial statements. We previously audited, in accordance with the standards referred to in the second paragraph of this report, the financial statements for the nine years ended June 30, 2011, (which are not presented herein) and expressed unqualified opinions on those financial statements. The introductory section, combining and individual non-major fund financial statements, and statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements. Other supplementary information included in Schedules 1 through 12, including the Schedule of Expenditures of Federal Awards required by U.S. Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, found in the Compliance Section, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in our audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards. In our opinion, the supplementary information is fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and, accordingly, we express no opinion on them.

**Johnston Community School District
Management's Discussion and Analysis
Year ended June 30, 2012**

The Johnston Community School District provides this Management's Discussion and Analysis of its financial statements. This narrative overview and analysis of the financial activities is for the fiscal year ended June 30, 2012. We encourage readers to consider this information in conjunction with the District's financial statements, which follow.

Financial Highlights

- The district showed an increase of \$6,624,855 and \$6,997,603 in net assets for governmental activities during the years ended June 30, 2012 and 2011, respectively. This increase is primarily a result of additions to capital assets (land purchase, Lawson Elementary addition, and Summit Middle School addition).
- Total revenues for the fiscal year ended June 30, 2012 and 2011 of \$79,918,322 and \$77,935,343 were comprised of General Revenues in the amount of \$60,217,081 and \$56,828,608 and Program Revenues totaling \$19,701,241 and \$21,106,735 respectively.
- As of June 30, 2012, the District's governmental funds reported combined ending fund balances of \$15,910,432, a decrease of \$5,622,296 in comparison with 2011. This compares with June 30, 2011 balance of \$21,532,728, an increase of \$468,529 in comparison with 2010. This decrease for year ending 2012 actually consists of \$1.4 million increase in Unassigned General Fund in addition to an approximate \$412,000 increase in the management fund balance offset by a large decrease (\$7.4 million) in the School Infrastructure fund balance due to using capital funds for the purchase of land, Lawson Elementary addition, and Summit Middle School addition. The increase in the Unassigned General Fund is due to a cash reserve levy to increase financial solvency.
- As of June 30, 2012, Unassigned fund balance for the General Fund was \$5,998,132 or 10% of total General Fund expenditures. This is an increase from the balance on June 30, 2011 of \$4,721,855 or 8.2% of expenditures. This large increase is again due to the cash reserve levy for fiscal 2012 offset by zero allowable growth funding and timing of science adoption expenses. It was determined by the Board to go forward with the science adoption in fiscal 2011 that had been originally deferred when the federal ed jobs funding was received. That federal funding was used to save positions which freed up other funds to be used for the adoption; however the actual expenses for the adoption were split between both fiscal 2011 and 2012 due to timing of receiving textbooks in the summer.

Overview of the Financial Statements

This report consists of three parts: management's discussion and analysis (this section), the basic financial statements and required supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are *Government-wide financial statements* that provide both short-term and long-term information about the District's overall financial status.
- The remaining statements are *fund financial statements* that focus on individual parts of the District, reporting the District's operations in more detail than the Government-wide statements.
- The statements for *governmental funds* explain how basic services, such as regular and special education, were financed in the short term as well as what remains for future spending.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the District's budget for the year.

Figure A-1 shows how the various parts of this annual report are arranged and relate to one another.

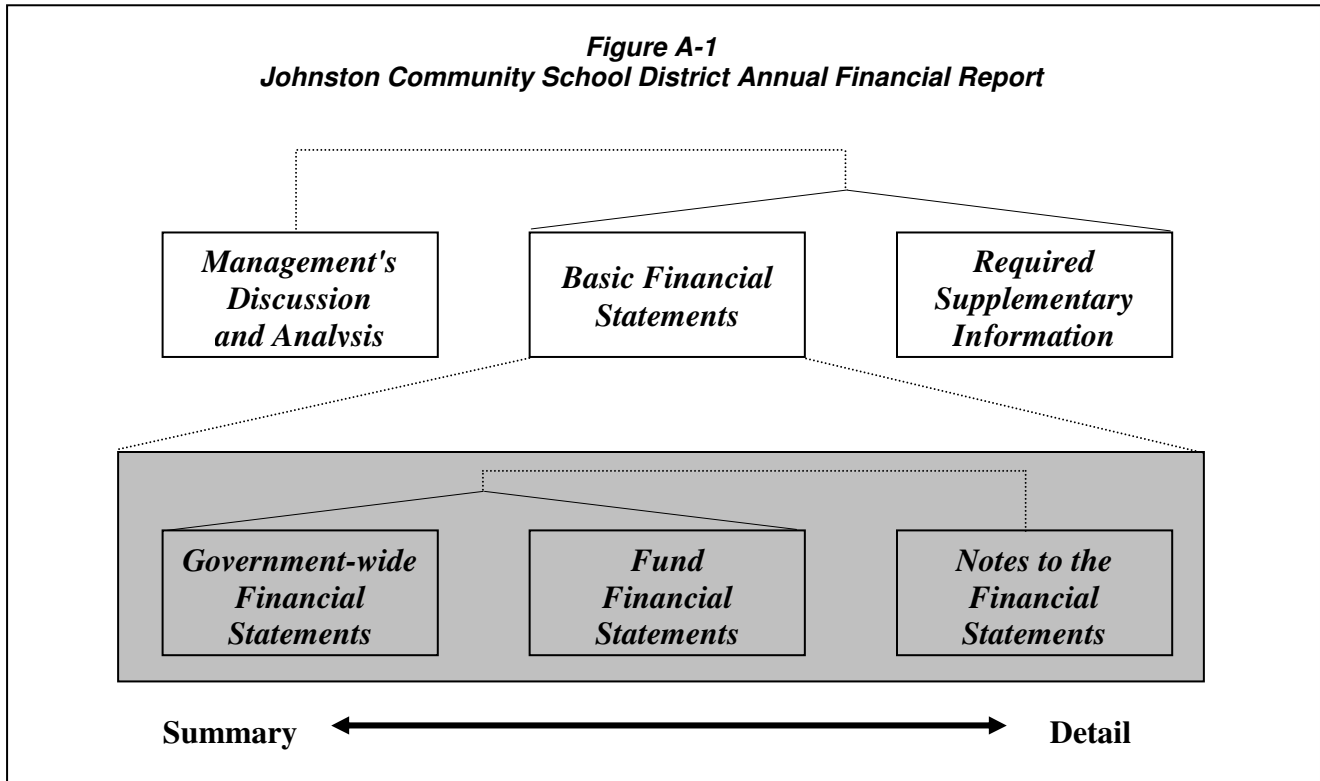

Figure A-2 summarizes the major features of the District's financial statements, including the portion of the District's activities they cover and the types of information they contain. The remainder of this overview section of the management's discussion and analysis highlights the structure and contents of each of the statements.

Figure A-2 Major Features of the Government-wide and Fund Financial Statements			
	Government-wide Statements	Fund Statements	
		Governmental Funds	Proprietary Funds
Scope	Entire district (except fiduciary funds)	The activities of the district that are not proprietary or fiduciary, such as special education and building maintenance	Activities the district operates similar to private businesses: food services and adult education
Required financial statements	<ul style="list-style-type: none"> • Statement of net assets • Statement of activities 	<ul style="list-style-type: none"> • Balance sheet • Statement of revenues, expenditures, and changes in fund balances 	<ul style="list-style-type: none"> • Statement of net assets • Statement of revenues, expenses and changes in fund net assets • Statement of cash flows
Accounting basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus
Type of asset/ liability information	All assets and liabilities, both financial and capital, short-term and long-term	Generally assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets or long-term liabilities included	All assets and liabilities, both financial and capital, and short-term and long-term
Type of inflow/ outflow information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and the related liability is due during the year or soon thereafter	All revenues and expenses during the year, regardless of when cash is received or paid

Government-wide Statements

The Government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Assets includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the Statement of Activities, regardless of when cash is received or paid.

The two Government-wide statements report the District's *net assets* and how they have changed. Net assets – the difference between the District's assets and liabilities – are one way to measure the District's financial health or position.

- Over time, increases or decreases in the District's net assets are an indicator of whether financial position is improving or deteriorating, respectively.
- To assess the District's overall health, you need to consider additional non-financial factors, such as changes in the District's property tax base and the condition of school buildings and other facilities.

In the Government-wide financial statements, the District's activities are divided into two categories:

- *Governmental activities*: Most of the District's basic services are included here, such as regular and special education, transportation and administration. Property tax and state aid finance most of these activities.
- *Business-type activities*: The District charges fees to help cover the costs of certain services it provides. The District's school nutrition program is included here.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs.

- Some funds are required by state law and by bond covenants.
- The District establishes other funds to control and manage money for particular purposes, such as accounting for student activity funds or to show that it is properly using certain revenues such as federal grants.

The District has two kinds of funds:

- *Governmental funds*: Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the Government-wide statements, additional information at the bottom of the governmental fund statements explains the relationship or differences between the two statements.
 - The District's governmental funds include the General Fund, Special Revenue Funds, Debt Service Fund and Capital Projects Fund.
- *Proprietary funds*. The District's proprietary funds are reported in the same way as the Government-wide statements.
 - The District's Enterprise Funds, one type of proprietary fund, are the same as its business-type activities, but provide more detail and additional information, such as cash flows. The District currently has three enterprise funds: School Nutrition, Daycare, Community Preschool and Community Education.
 - The District's internal service funds consist of revenues and expenses related to services provided to organizations inside the District on a cost reimbursement basis. The District's internal service funds are the Health and Dental Insurance and Flex Benefit funds.

Financial Analysis of the District as a Whole

Net assets - Figure A-3 below provides a summary of the District's net assets for the year ended June 30, 2012 compared to June 30, 2011.

Unrestricted	9,387,456	7,405,591	2,586,485	2,122,298	11,973,941	9,527,889	25.7%
Total net assets	\$ 81,488,596	74,863,741	3,174,443	2,806,789	84,663,039	77,670,530	9.0%

- As noted earlier, net assets may serve over time as a useful indicator of a government entity's financial position. The District's total net assets have increased from a year ago \$77,670,530 to \$84,663,039. This increase is primarily a result of addition to capital assets (land purchase, Lawson Elementary addition, and Summit Middle School addition).

The significant portions of the District's combined net assets reflect its investment in capital assets and are not available for future spending. The District's net assets invested in capital assets, net of related debt, was \$62,944,363 for 2012 and \$51,714,513 for 2011.

Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources to repay this debt must be provided from other sources since the capital assets themselves cannot be used to liquidate these liabilities. Long-term debt liabilities will be repaid through future property and sales taxes collections. Bond debt retirement for the year was \$4,305,000.

Property tax and unrestricted state grants account for 74.4 percent of the total revenue. The District's expenses primarily relate to instruction and support services that account for 86.8 percent of the total expenses.

The restricted portion of the District's net assets (11.5 percent for 2012 and 21.2 percent for 2011) represents resources that are subject to external restrictions in how they may be used. This decrease is due to the use of capital projects fund during the fiscal year to purchase land and construct additions to Lawson Elementary and Summit Middle School. Restrictions for 2012 include \$3,677,467 for capital projects, \$2,173,613 for physical plant and equipment levy, \$114,057 for internal services, \$587,673 for other special revenue purposes, \$391,097 for debt service, \$1,877,876 for management levy, \$875,116 for state categorical funding, and \$47,836 for other purpose restricted assets. The remaining balance of unrestricted net assets of \$11,973,941 for 2012 and \$9,527,889 for 2011 may be used to meet the government's ongoing obligations to students and creditors.

The District's total net assets increased by \$6,992,509 during the current fiscal year as compared to \$7,157,532 in 2011. The governmental activities net assets increased by \$6,624,855 in 2012 and \$6,997,603 in 2011. This increase is primarily a result of additions to capital assets (land purchase, Lawson Elementary addition, and Summit Middle School addition). The business type activities (which include nutrition, community education, community preschool and daycare) increased by \$367,654 in 2012, as compared to \$159,929 in 2011 for an increase of \$207,725.

**Johnston Community School District
Management's Discussion and Analysis
Year ended June 30, 2012**

Governmental Activities

Revenues for governmental activities were \$73,966,949 and expenses were \$67,342,094 for the year ended June 30, 2012. Net assets increased by \$6,624,855.

Figure A-4 highlights the District's revenues and expenses for the fiscal year ended June 30, 2012 and 2011. These two main components are subtracted to yield the change in net assets. This exhibit utilizes the full accrual method of accounting. Revenue is further divided into two major components: program revenue and general revenue. Program revenue is defined as charges for services and sales, operating and capital grants and contributions. General revenue includes taxes and unrestricted grants such as state foundation support.

Expenses are shown in programs including instruction, support services, non-instructional programs and other expenses.

Business Type Activities

Revenues of the District's business-type activities were \$5,951,373 and expenses were \$5,583,719 for the year ended June 30, 2012. Net assets increased \$367,654. The District's business-type activities include the School Nutrition, Daycare, Community Preschool and Community Education Funds. Revenues of these activities were comprised of charges for service and federal and state reimbursements.

Financial Analysis of the District's Funds

- The financial performance of the District as a whole is reflected in its governmental funds as well. On June 30, 2012 the District's governmental funds reported combined fund balances of \$15,910,432 as compared to the 2011 ending fund balances of \$21,532,728. The \$5,622,296 decrease for year ending 2012 actually consists of approximately \$1.4 million increase in Unassigned General Fund in addition to an approximate \$412,000 increase in the management fund balance offset by a large decrease (\$7.4 million) in the School Infrastructure fund balance due to using capital funds for the purchase of land, Lawson Elementary addition, and Summit addition. The increase in the Unassigned General Fund is due to a cash reserve levy to increase financial solvency.

Governmental Fund Highlights

- The District's General Fund balance increased by \$1,391,688. The June 30, 2011 balance of \$5,529,396 increased to \$6,921,084 on June 30, 2012. This large increase is again due to the cash reserve levied by the Board of Education to improve fund balances and financial solvency for fiscal 2012 offset by zero allowable growth funding and timing of science adoption expenses. It was determined by the Board to go forward with the science adoption in fiscal 2011 that had been originally deferred when the federal ed jobs funding was received. That federal funding was used to save positions which freed up other funds to be used for the adoption; however the actual expenses for the adoption were split between both fiscal 2011 and 2012 due to timing of receiving textbooks in the summer.
- The Debt Service Fund balance decreased from \$517,651 June 30, 2011 to \$516,040 June 30, 2012.
- The Capital Projects Fund balance decreased from \$13,284,800 June 30, 2011 to \$5,851,080 June 30, 2012 as funds were used for land purchase, Lawson Elementary addition, and Summit addition. (Physical plant and equipment is now considered part of Capital Projects Fund balance starting in fiscal year 2011 and was part of non-major special revenue funds prior to fiscal year 2011).
- The non-major special revenue funds balance increased \$421,347 as additional funds were accumulated in both the management and student activity funds.

Proprietary Fund Highlights

The School Nutrition Fund net assets increased from \$1,927,773 on June 30, 2011 to \$2,151,159 on June 30, 2012 for an increase of 11.6%.

Budgetary Highlights

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearing for all funds, except for internal services, private-purpose trusts and agency funds. Although the budget document presents functional area expenditures or expenses by fund, the legal level of control is at the aggregated functional level, not at the fund or fund type level. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is prepared on the accrual basis. Schedules showing the original and final budget amounts compared to the District's actual financial activity are included in the required supplementary information section of this report.

Legal Budgetary Highlights

As allowed by GASB Statement No. 41, *Budgetary Comparison Schedules – Perspective Differences*, the District presents budgetary comparison schedules as required supplementary information based on the program structure of four functional areas as required by state statute for its legally adopted budget. In accordance with the Code of Iowa, the Board of Education annually adopts a program budget for all funds except internal service and agency funds as described in the note to required supplementary information.

A comparison of actual expenditures/expenses of the District's budgeted funds with the final program budget amounts is as follows:

	Final Budget	Actual	Variance
Instruction	\$ 46,945,575	42,988,633	3,956,942
Support services	23,449,504	18,616,789	4,832,715
Non-instructional programs	7,388,458	4,941,632	2,446,826
Other	25,719,744	18,625,910	7,093,834
\$	103,503,281	85,172,964	18,330,317

"Other" expenditures variance is due to construction project expenditures not meeting projected cash flows, always a difficult estimate.

Capital Assets and Debt Administration

Capital Assets

At June 30, 2012, the District had invested \$99,334,257 net of accumulated depreciation, in a broad range of capital assets, including land, buildings, athletic facilities, computers, audio-visual equipment and transportation equipment. This compares to the June 30, 2011 balance of \$92,327,373. See Figure A-5.

The original cost of the District's capital assets was \$137,829,010. Governmental funds account for \$135,799,436 with the remainder, \$2,029,574, in the Enterprise funds.

The largest changes in capital asset activity during the year occurred in the categories of land and construction with a land purchase of approximately 125 acres, and completed construction on the Summit addition and most of the Lawson Elementary addition.

Figure A-5
Capital Assets, Net of Depreciation

	Governmental activities		Business type activities		Total District		Total Change
	June 30,		June 30,		June 30,		June 30,
	2012	2011	2012	2011	2012	2011	2010-2011

Total	\$ 98,746,299	91,651,252	587,959	676,121	99,334,258	92,327,373	7.6%

Additional information about the District's capital assets can be found in Note 5 on page 44 in the notes to the financial statements.

Long-Term Debt

At June 30, 2012 the District had \$37,721,009 in general obligation bonds and other long-term debt outstanding. This represents a decrease of approximately 10.4 percent from June 30, 2011. (See Figure A-6) More detailed information about the District's long-term liabilities is available in Note 6 to the financial statements.

The decrease reflects normal principal reductions for bonds. This is the fourth year to recognize other post employment benefits. The early retirement policy for 2009 and 2010 had an increased 403B incentive with no insurance benefit, and there was no early retirement policy for fiscal year 2011 or 2012.

Figure A-6

Totals	\$ 37,721,009	42,111,406	-10.4%

Factors Bearing on the District's Future

At the time these financial statements were prepared and audited, the District was aware of several existing circumstances that could significantly affect its financial health in the future:

- The District expects continued enrollment growth during the foreseeable future. The district's enrollment growth has averaged 3.6% annually over the last ten years. The District has seen annual certified enrollment increases slow down from an average increase of 188 students during the last ten years to an average of 126 students during the last five years. The District utilizes a demographer to assist with enrollment projections.
- The District has averaged 7.6% annual increase in the tax base over the past ten years, and experienced a 5.9% increase with 2012.
- The continued slow growth in state revenues and increasing enrollments will continue to put great pressure on district finances to meet the personnel, facility and transportation needs of the District.
- The economy continues to be a factor that could have consequences for the district in regard to state revenues, property valuations, and enrollment.

Contacting the District's Financial Management

This financial report is designed to provide the District's citizens, taxpayers, customers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Jan Miller-Hook, Executive Director of Financial Services, Johnston Community School District, 5608 Merle Hay Road, Johnston, IA 50131-1234.

Exhibit D

**Johnston Community School District
 Reconciliation of the Balance Sheet
 Governmental Funds to the Statement of Net Assets
 June 30, 2012**

Total fund balances of governmental funds (Exhibit C) \$ 15,910,432

Amounts reported for governmental activities in the statement of net assets are different because:

Capital assets used in governmental activities are not financial resources and, therefore, are not reported as assets in the governmental funds. 98,746,299

The Internal Service Fund is used by management to charge the costs of partial self funding of the District's health insurance benefit plan to individual funds. The assets and liabilities of the Internal Service Fund are included in governmental activities in the Statement of Net Assets. 4,636,646

Long-term liabilities, including bonds and notes payable, compensated absences and other postemployment benefits, are not due and payable in the current period and, therefore, are not reported as liabilities in the governmental funds. Those liabilities at year-end consist of:

Capital loan notes payable	\$	(730,000)	
General obligation bonds payable		(35,630,000)	
Bond issuance costs		12,615	
Bond premiums		(42,509)	
Accrued interest		(124,943)	
Early retirement		(290,415)	
Portion of early retirement reflected on governmental funds		133,736	
Compensated absences		(145,078)	
Other post employment benefits		(988,187)	(37,804,781)

Net assets of governmental activities (Exhibit A) \$ 81,488,596

See notes to basic financial statements.

**Johnston Community School District
 Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances
 Governmental Funds to the Statement of Activities
 Year ended June 30, 2012**

Net change in fund balances - total governmental funds (Exhibit E) \$ (5,622,296)

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, those costs are reported in the Statement of Net Assets and are allocated over their estimated useful lives as depreciation expense in the Statement of Activities. The amounts of capital outlays and depreciation expense in the year are as follows:

Capital outlays:

From facilities acquisition	\$ 10,383,731	
Less current year depreciation	(3,288,684)	7,095,047

Proceeds from issuing long-term liabilities provide current financial resources to governmental funds, but increases long-term liabilities in the Statement of Net Assets. Repayment of long-term debt liabilities is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Assets. Also, governmental funds report the effect of issuance costs and premiums, whereas these amounts are deferred in and amortized in the Statement of Activities.

Current year items are as follows:

Repayments of bond and note principal	4,305,000	
Amortization of premiums and bond issuance costs	3,736	4,308,736

Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the funds when due. In the Statement of Activities, interest expense is recognized as the interest accrues, regardless of when it is due.

12,987

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.

Early retirement - long-term	133,736	
Compensated absences	(6,234)	
Other postemployment benefits	(154,711)	(27,209)

The Internal Service Fund is used by management to charge the costs of employee health benefits to individual funds. The change in net assets of the Internal Service Fund is reported with governmental activities.

857,590

Change in net assets of governmental activities (Exhibit B) **\$ 6,624,855**

See notes to basic financial statements.

During the year ended June 30, 2012, the District received federal commodities valued at \$258,841.

See notes to basic financial statements.

(1) **Summary of Significant Accounting Policies**

The Johnston Community School District is a political subdivision of the State of Iowa and operates public schools for children in grades prekindergarten through twelve. Additionally, the District either operates or sponsors various adult education programs. These courses include remedial education as well as vocational and recreational courses. The geographic area served includes the city of Johnston, Iowa; portions of Urbandale, Des Moines, Granger and Grimes, Iowa; and other unincorporated areas of Polk County. The District is governed by a Board of Education whose members are elected on a non-partisan basis.

The District's financial statements are prepared in conformity with U.S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board.

A. Reporting Entity

For financial reporting purposes, Johnston Community School District has included all funds, organizations, agencies, boards, commissions and authorities. The District has also considered all potential component units for which it is financially accountable, and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body, and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to, or impose specific financial burdens on the District. Johnston Community School District has no component units which meet the Governmental Accounting Standards Board criteria.

Jointly Governed Organizations - The District participates in a jointly governed organization that provides services to the District but does not meet the criteria of a joint venture since there is no ongoing financial interest or responsibility by the participating governments. The District is a member of the Polk County Assessor's Conference Board.

B. Basis of Presentation

Government-wide Financial Statements - The Statement of Net Assets and the Statement of Activities report information on all of the activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Interfund services provided and used are not eliminated in the process of consolidation. Governmental activities, which normally are supported by tax and intergovernmental revenues, are reported separately from business type activities, which rely to a significant extent on fees and charges for service.

The Statement of Net Assets presents the District's assets and liabilities, with the difference reported as net assets. Net assets are reported in three categories:

Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.

Restricted net assets result when constraints placed on net asset use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net assets consist of net assets that do not meet the definition of the two preceding categories. Unrestricted net assets often have constraints on resources that are imposed by management, but can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segments are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants, contributions and interest that are restricted to meeting the operational or capital requirements of a particular function. Property tax and other items not properly included among program revenues are reported instead as general revenues.

(1) *Summary of Significant Accounting Policies (continued from previous page)*

Fund Financial Statements - Separate financial statements are provided for governmental and proprietary funds. Major individual governmental funds are reported as separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as other non-major governmental funds. Combining schedules are also included for the Capital Project Fund accounts.

Fund accounting - The accounts of the District are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts which comprise its assets, liabilities, reserves, fund balance/net assets, revenues and expenditures or expenses, as appropriate. The District has the following funds:

Governmental Fund Types: Governmental fund types are those funds through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the District's major governmental funds:

General Fund: The General Fund is the general operating fund of the District. All general tax revenues and other revenues that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. From the fund are paid the general operating expenditures, including instructional, support and other costs.

Debt Service Fund: The Debt Service Fund is utilized to account for property tax and other revenues to be used for the payment of interest and principal on the District's general long-term debt.

Capital Projects Fund: The Capital Projects Fund is used to account for all resources used in the acquisition and construction of capital facilities and other capital assets.

The other governmental funds of the District are considered non-major and are as follows:

Special Revenue Funds: The Special Revenue Funds account for the revenue sources that are legally restricted to expenditures for specific purposes. These funds consist of the following:

Student Activity Funds: This fund accounts for transactions that occur due to student-related activities from groups and organizations such as athletic and activity events, fundraising and other extra-curricular or co-curricular activities.

Management Fund: This fund is authorized by Iowa Code Section 298.4 and accounts for transactions related to unemployment, early retirement, judgments and settlements and the cost of liability insurance as it relates to property and casualty.

Proprietary Fund Types: Proprietary fund types are used to account for the District's ongoing organizations and activities which are similar to those often found in the private sector. The measurement focus is upon income determination, financial position and cash flows. The following are the District's proprietary funds:

Enterprise Funds: Enterprise funds are used to account for those operations that are financed and operated in a manner similar to private business or where the District has decided that the determination of revenues earned, costs incurred and/or net income is necessary for management accountability. In accordance with Governmental Accounting Standards Board (GASB) Statement No. 20, *Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities that Use Proprietary Fund Accounting*, the District has elected to apply all applicable Financial Accounting Standards Board (FASB) pronouncements, issued on or before November 30, 1989, except for those pronouncements which conflict with or contradict GASB pronouncements.

(1) *Summary of Significant Accounting Policies (continued from previous page)*

The following enterprise funds of the District are considered non-major:

School Nutrition Fund: This fund accounts for transactions related to the school lunch, breakfast and summer food programs authorized by Iowa Code 283A.

Child Care Fund: This fund accounts for transactions for before and after school child care and summer child care programs authorized by Iowa Code 298A.12 and 279.49.

Preschool Fund: This fund accounts for transactions for preschool programs with an instructional component for children who have not yet met the age requirement for school-aged education.

Community Education Fund: This fund accounts for transactions for facilities and services to provide further education opportunities to the local area.

Internal Service Funds: The internal service funds are used to account for goods or services provided by one department to other departments of the District on a cost reimbursement basis. The District has the following internal service funds:

Self-Insurance Fund: This fund accounts for transactions for self-insured health insurances including medical, dental, prescription and vision received by District employees in which the District is responsible for paying all claims and administrative costs attributable to the insurances listed above.

Flexible Benefits: This fund accounts for transactions for certain benefits available to District employees in which the District is responsible for paying all premiums or costs specified by the employee.

C. Measurement Focus and Basis of Accounting

The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax is recognized as revenue in the year for which it is levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days after year end.

Property tax, intergovernmental revenues (shared revenues, grants and reimbursements from other governments) and interest associated with the current fiscal period are all considered to be susceptible to accrual. All other revenue items are considered to be measurable and available only when cash is received by the District.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on long-term debt, claims and judgments, and compensated absences are recognized as expenditures only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, and then general revenues.

(1) *Summary of Significant Accounting Policies (continued from previous page)*

When an expenditure is incurred in governmental funds which can be paid using either restricted or unrestricted resources, the District's policy is generally to first apply the expenditure toward restricted fund balance and then to less-restrictive classifications – committed, assigned and then unassigned fund balances.

The proprietary fund of the District applies all applicable GASB pronouncements as well as the following pronouncements issued on or before November 30, 1989, unless these pronouncements conflict with or contradict GASB pronouncements: Financial Accounting Standards Board Statements and Interpretations, Accounting Principles Board Opinions, and Accounting Research Bulletins of the Committee on Accounting Procedure.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's Enterprise Funds are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The District maintains its financial records on the cash basis. The financial statements of the District are prepared by making memorandum adjusting entries to the cash basis financial records.

D. Assets, Liabilities and Fund Equity

The following accounting policies are followed in preparing the financial statements:

Cash, Pooled Investments and Cash Equivalents – The District maintains a cash and investment pool used by all funds. The cash and investment pool has the same characteristics as demand deposits. Each fund type's portion of this pool is displayed in the financial statements as cash and cash equivalents in that fund. The District utilizes a financial institution to service bonded debt as principal and interest payments come due. The monies are either maintained in a central bank account or used to purchase legal investments.

It is the policy of the District to value investment contracts and money market investments with a maturity of one year or less at the time of purchase at cost or amortized cost. Investment contracts and money market investments that had a remaining maturity of greater than one year at the time of purchase are reported at fair value.

The District has invested funds in the Iowa Schools Joint Investment Trust (ISJIT). ISJIT is an investment pool managed by the trustee, Bankers Trust, which allows governments within the State to pool their funds for investment purposes. ISJIT is registered with the SEC as an investment company and operates in a manner consistent with Rule 2a-7 of the Investment Company Act of 1940. Investments in ISJIT are valued at an amortized cost pursuant to Rule 2a-7 under the Investment Company Act of 1940.

For purposes of the statement of cash flows, all short-term cash investments that are highly liquid are considered to be cash equivalents. Cash equivalents are readily convertible to known amounts of cash and, at the day of purchase, have a maturity date no longer than three months.

Property Tax Receivable – Property tax in the governmental funds are accounted for using the modified accrual basis of accounting.

Property tax receivable is recognized in these funds on the levy or lien date, which is the date that the tax asking is certified by the Board of Education. Delinquent property tax receivable represents unpaid taxes for the current and prior years. The succeeding year property tax receivable represents taxes certified by the Board of Education to be collected in the next fiscal year for the purposes set out in the budget for the next fiscal year. By statute, the District is required to certify its budget in April of each year for the subsequent fiscal year. However, by statute, the tax asking and budget certification for the following fiscal year becomes effective on the first day of that year. Although the succeeding year property tax receivable has been recorded, the related revenue is deferred in both the Government-wide and fund financial statements and will not be recognized as revenue until the year for which it is levied.

Johnston Community School District
Notes to Financial Statements
Year ended June 30, 2012

(1) *Summary of Significant Accounting Policies (continued from previous page)*

Property tax revenue recognized in these funds become due and collectible in September and March of the fiscal year with a 1½% per month penalty for delinquent payments; is based on January 1, 2010 assessed property valuations; is for the tax accrual period July 1, 2011 through June 30, 2012 and reflects the tax asking contained in the budget certified to the County Board of Supervisors in April, 2011.

Due from Other Governments – Due from other governments represents amounts due from the State of Iowa, various shared revenues, grants and reimbursements from other governments. Federal and state grants are recorded as receivables and the revenue is recognized during the period in which the District fulfills the requirements for receiving the grant awards in the government-wide statements. In the governmental fund statements, the revenue must meet the measurable and available criteria. Amounts received for which legal claims or applicable requirements have not been met are recorded as deferred revenue. Certain intergovernmental revenues have been included to spend such funds only for the purpose reported.

Inventories – Inventories are valued at cost using the first-in, first-out method for purchased items and government commodities. Inventories of proprietary funds are recorded as expenses when consumed rather than when purchased or received.

Prepaid Items – Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements on the consumption method.

Capital Assets – Capital assets, which include property, furniture, and equipment, are reported in the applicable governmental or business type activities columns in the government-wide Statement of Net Assets. Capital assets are recorded at historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Capital assets are defined by the District as assets with an initial, individual cost in excess of the following thresholds and estimated useful lives in excess of two years.

<u>Asset Class</u>	<u>Amount</u>
Land	\$ 3,500
Buildings	3,500
Improvements other than buildings	3,500
Furniture and equipment:	
School Nutrition Fund equipment	500
Other furniture and equipment	3,500

Capital assets (with the exception of land and construction in progress, which are not depreciated) are depreciated using the straight line method over the following estimated useful lives:

<u>Asset Class</u>	<u>Estimated Useful Lives (In Years)</u>
Buildings	50 years
Improvements other than buildings	20-50 years
Furniture and equipment	5-15 years

Interfund Activity - Transfers between governmental and business type activities on the government-wide statements are reported in the same manner as general revenues. Sales of goods and services between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in proprietary funds.

Salaries and Benefits Payable - Payroll and related expenditures for teachers with annual contracts corresponding to the current school year, which are payable in July and August, have been accrued as liabilities.

(1) *Summary of Significant Accounting Policies (continued from previous page)*

Deferred and Unearned Revenue - Although certain revenues are measurable, they are not available. Available means collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred in the governmental fund financial statements represent the amount of assets that have been recognized, but the related revenue has not been recognized since the assets are not collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred revenue consists of the succeeding year's property tax receivable and unspent grant proceeds.

Unearned revenue on the Statement of Net Assets consists of the succeeding year's property tax receivable that will not be recognized as revenue until the year for which it is levied and unearned grant proceeds.

Compensated Absences – District employees accumulate a limited amount of earned but unused vacation for subsequent use or for payment upon termination, death or retirement. A liability is recorded when incurred in the government-wide financial statements. A liability for these amounts is reported in governmental fund financial statements only for employees that have resigned or retired. The compensated absences liability has been computed based on rates of pay in effect at June 30, 2012. The compensated absences liability attributable to the governmental activities will be paid primarily by the General Fund. The District has no vesting requirement and the earned but unused vacation is all considered a current liability.

Long-term Liabilities – In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities column in the Statement of Net Assets.

Fund Equity – In the governmental fund financial statements, fund balances are classified as follows:

Restricted – Amounts restricted to specific purposes when constraints placed on the use of the resources are either externally imposed by creditors, grantors or state or federal laws or imposed by law through constitutional provisions or enabling legislation.

Committed – Amounts which can be used only for specific purposes determined pursuant to constraints formally imposed by the Board of Education through resolution approved prior to year end. Those committed amounts cannot be used for any other purpose unless the Board of Education removes or changes the specified use by taking the same action it employed to commit those amounts.

Non-spendable – Amounts which cannot be spent either because they are in a non-spendable form or because they are legally or contractually required to be maintained intact.

Unassigned – All amounts not included in other spendable classifications.

Restricted Net Assets – In the government-wide Statement of Net Assets, net assets are reported as restricted when constraints placed on net asset use are either externally imposed by creditors, grantors, contributors or laws and regulations of other governments or imposed by law through constitutional provisions or enabling legislation.

E. Budgets and Budgetary Accounting

As allowed by GASB Statement No. 41, *Budgetary Comparison Schedules - Perspective Differences*, the District presents budgetary comparison schedules as required supplementary information based on the program structure of four functional areas as required by state statute for its legally adopted budget. During the year ended June 30, 2012, expenditures did not exceed the amounts budgeted.

(2) Cash and Pooled Investments

The District's deposits in banks at June 30, 2012 were entirely covered by federal depository insurance or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to insure there will be no loss of public funds.

The District is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Board of Education; prime eligible bankers acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district.

At June 30, 2012, the District had investments in the following:

Iowa Schools Joint Investment Trust	
Diversified Portfolio	\$ 8,260,134
Wells Fargo Bank Money Market	12,079,733
	<u>\$ 20,339,867</u>

Interest rate risk. As a means of limiting exposure to fair value losses arising from rising interest rates, the District's investment policy requires operating funds to be invested in investments that mature within three hundred and ninety-seven days or less. When investing other than operating funds, the investments must mature according to the needs of the funds. Operating funds of the District are funds which are reasonably expected to be used during a current budget year or within fifteen months of receipt.

Credit risk. The investments in the Iowa Schools Joint Investment Trust and the IPASeducation program were both rated Aaa by Moody's Investors Service. The fair value of the District's position in these programs is the same as the value of the program shares. The investments in Wells Fargo are primarily invested in U.S. Treasury securities. The District is authorized by statute to invest public funds not currently needed for operating expenses in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Board of Education and the Treasurer of the State of Iowa, and certain joint investment trusts. The District may also invest in commercial paper or other short-term corporate debt that matures within two hundred seventy days that is rated in the highest classification, as established by at least one of the standard rating services approved by the superintendent of banking by rules adopted pursuant to Chapter 17A, provided that at the time of purchase no more than five percent of the investment portfolio shall be invested in the securities of a single issuer.

Concentration of credit risk. The District's investment policy seeks diversification to reduce overall portfolio risk while attaining market rates of return to enable the District to meet all anticipated cash requirements. The District's policy further restricts investments in short-term corporate debt and commercial paper to no more than 30 percent of the investment portfolio of the District and no more than 5 percent of the investment portfolio can be invested in the securities of a single issuer.

Custodial credit risk. Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g. broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. Chapter 12c of the Code of Iowa requires all District funds be deposited into an approved depository and be either insured or collateralized.

(3) Due from Other Governments

The detail of due from other governments for the year ended June 30, 2012 is as follows:

Due from other districts	\$ 1,470,184
Due from the State of Iowa - Local sources	829,635
Due from the State of Iowa - State sources	246,899
Due from the State of Iowa - Federal sources	248,952
	<u>\$ 2,795,670</u>

(4) **Interfund Transfers**

The detail of interfund transfers for the year ended June 30, 2012 is as follows:

Transfer to	Transfer from	Amount
Debt Service Fund	Capital Projects Fund - Physical Plant and Equipment Levy	\$ 745,875
Debt Service Fund	Capital Projects Fund - Statewide Sales, Services and Use Tax	2,908,876
		<u>\$ 3,654,751</u>

Transfers generally move revenues from the fund statutorily required to collect the resources to the fund statutorily required to expend the resources.

Johnston Community School District

Capital Loan Notes Payable

Details of the District's June 30, 2012 capital loan note indebtedness are as follows:

Issued for the purpose of purchasing and improving grounds; constructing schoolhouses or buildings and opening roads to schoolhouses or buildings; purchasing of buildings and the purchase of equipment; paying debts contracted for the erection or construction of schoolhouses or buildings; not including interest on bonds; procuring or acquisition of libraries; repairing, remodeling, reconstructing, improving, or expanding the schoolhouses or buildings and additions to existing schoolhouses; expenditures for energy conservation; renting facilities under Chapter 28E; purchasing equipment for transporting students; lease purchase option agreements for school buildings or equipment; or purchasing equipment authorized by law.

\$6,500,000 Capital Loan Note of June 1, 2003				
Year ended June 30,	Rates	Principal	Interest	Total
2013	2.875%	730,000	20,988	750,988
Total		\$ 730,000	20,988	750,988

At the school election held on September 10, 2002, a special proposition authorizing the levy of tax not exceeding one dollar and thirty-four cents per one hundred thousand dollars of assessed value was adopted and approved by the electors. In order to make the proceeds of this voted tax immediately available, the Board of Directors, pursuant to Iowa Code section 297.36, authorized the sale of \$6,500,000 of capital loan notes.

Early Retirement

There was no early retirement plan offered to District employees for 2012. However, the District has offered voluntary early retirement plans to its employees in the past with application for early retirement subject to approval by the Board of Education. The most recent plan required eligible employees to have completed at least ten years of full-time service within the prior twelve consecutive years to the District and must have reached the age of fifty-five on or before June 30 in the calendar year in which early retirement was to commence. No more than ten employees were allowed to retire in any given year with priority given to employees with the longest tenure of service.

Early retirement benefits were equal to 50% of the average of the employee's highest three year's contractual salary in the twelve years prior to retirement plus accumulated sick leave cash-out. Early retirement cash benefit amounts were placed in a State RIC 403(b) plan as directed by the employee in the July immediately following retirement.

Before the most recent voluntary early retirement plan described above, there was a voluntary early retirement plan that consisted of both a stipend paid to a 403b account representing 30% of employee's high three year average and a single insurance benefit covering employees until Medicare eligible.

At June 30, 2012, the District had obligations to 27 participants with a total liability of \$290,415 which was due to health insurance liabilities from the older early retirement plan. Actual early retirement expenditures for the year ended June 30, 2012 totaled \$377,398.

This long-term liability is generally liquidated with funds from the Non-major Special Revenue Fund – Management Levy.

(7) Pension and Retirement Benefits

The District contributes to the Iowa Public Employees Retirement System (IPERS) which is a cost-sharing multiple-employer defined benefit pension plan administered by the State of Iowa. IPERS provides retirement and death benefits which are established by State statute to plan members and beneficiaries. IPERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to IPERS, P.O. Box 9117, Des Moines, Iowa, 50306-9117.

Plan members are required to contribute 5.38% of their annual covered salary and the District is required to contribute 8.07% of annual covered salary. Contribution requirements are established by state statute. The District's contribution to IPERS for the years ended June 30, 2012, 2011 and 2010 were \$3,158,883, \$2,614,606, and \$2,436,231, respectively, equal to the required contributions for each year.

(8) Other Post-Employment Benefits (OPEB)

Plan Description - The District operates a single-employer retiree benefit plan which provides medical and prescription drug benefits for retirees and their spouses. There are 731 active and 30 retired members in the plan. Participants must be age 55 or older at retirement and must have been employed full time by the District for a minimum of 10 years within the 12 consecutive years prior to the retirement year. The plan does not issue a standalone report.

The medical/prescription drug coverage is provided through a self-funded insurance program administered by a third party administrator. Retirees under age 65 pay the same premium for the medical/prescription drug benefit as active employees, which results in an implicit subsidy and an OPEB liability.

Funding Policy – The contribution requirements of plan members are established and may be amended by the District. The District currently finances the retiree benefit plan on a pay-as-you-go basis.

Annual OPEB Cost and Net OPEB Obligation - The District's annual OPEB cost is calculated based on the annual required contribution (ARC) of the District, an amount actuarially determined in accordance with GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years.

Johnston Community School District
Notes to Financial Statements
Year ended June 30, 2012

(8) *Other Post-Employment Benefits (OPEB) (continued from previous page)*

The following table shows the components of the District's annual OPEB cost for the year ended June 30, 2012, the amount actually contributed to the plan and changes in the District's net OPEB obligation:

	2012	2011	2010
Annual required contribution	\$ 420,000	732,000	732,000
Interest on net OPEB obligation	40,000	24,570	10,000
Adjustment to annual required contribution	(34,000)	(20,872)	(8,000)
Annual OPEB cost	426,000	735,698	734,000
Contributions made	(264,000)	(403,000)	(402,999)
Increase in net OPEB obligation	162,000	332,698	331,001
Net OPEB obligation beginning of year	878,699	546,001	215,000
Net OPEB obligation end of year	\$ 1,040,699	878,699	546,001

For calculation of the net OPEB obligation, the actuary has set the transition day as July 1, 2011. The end of year net OPEB obligation was calculated by the actuary as the cumulative difference between the actuarially determined funding requirements and the actual contributions for the year ended June 30, 2012.

For the year ended June 30, 2012, the District contributed \$264,000 to the medical plan. Plan members eligible for benefits were not required to contribute.

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation as of June 30, 2012 are summarized as follows:

Year Ended	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
June 30, 2010	\$ 734,000	54.90%	546,001
June 30, 2011	735,698	45.86%	878,699
June 30, 2012	426,000	61.97%	1,040,699

Funded Status and Funding Progress - As of July 1, 2011, the most recent actuarial valuation date for the period July 1, 2011 through June 30, 2012, the actuarial accrued liability was \$3.22 million, with no actuarial value of assets, resulting in an unfunded actuarial accrued liability (UAAL) of \$3.22 million. The covered payroll (annual payroll of active employees covered by the plan) was \$35,990,188, and the ratio of the UAAL to covered payroll was 8.9%. As of June 30, 2012, there were no trust fund assets.

Actuarial Methods and Assumptions - Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the health care cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The Schedule of Funding Progress, presented as required supplementary information in the section following the Notes to Financial Statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the plan as understood by the employer and the plan members and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

As of the July 1, 2011 actuarial valuation date, the projected unit credit actuarial cost method was used. The actuarial assumption includes a 4.5% discount rate based on the District's funding policy. The projected annual healthcare cost trend rate is 9%. The ultimate medical trend rate is 5.0%. The medical trend rate is reduced 1.0% each year until reaching the 5.0% ultimate trend rate.

Johnston Community School District
Notes to Financial Statements
Year ended June 30, 2012

(8) *Other Post-Employment Benefits (OPEB) (continued from previous page)*

Mortality rates are from the RP2000 Group Annuity Mortality Table, applied on a gender-specific basis. Annual retirement and termination probabilities were developed from the retirement probabilities and applying the termination factors used in the IPERS Actuarial Report as of June 30, 2011.

Projected claim costs of the medical plan are \$770 per month for retirees less than age 65 and \$578 per month for retirees who have attained age 65. The salary increase rate was assumed to be 3.5% per year. The UAAL is being amortized as a level percentage of projected payroll expense on an open basis over 30 years. Information regarding the inflation rate investment return and post-retirement benefit increases was not available.

(9) **Risk Management**

Johnston Community School District is exposed to various risks of loss related to torts; theft; damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by the purchase of commercial insurance. The District assumes liability for any deductibles and claims in excess of coverage limitations. During the year ended June 30, 2012, there were no significant reductions in coverage. In addition, over the past three fiscal years, settlement amounts did not exceed insurance coverage.

In addition to the above, the District operates a partially self-funded insurance program administered by a third party administrator for its employees' and eligible dependents' medical benefits. The program is supplemented by stop loss protection, which limits the District's liability to \$60,000 per individual medical claim or an aggregate limit of 125% during the period July 1, 2005 through June 30, 2012.

The District operates a totally self-funded insurance program administered by a third party administrator for its employees' and eligible dependents' dental benefits. The program liability is limited to \$1,000 per individual per year.

Both plans receive an annual actuarial opinion and an annual report is filed with the State of Iowa Insurance Division. The insurance claims liability of \$839,569 reported at June 30, 2012 is based on the requirements of GASB Statement No. 10, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported.

The District operates a Section 125/Flex Plan whereby employee contributions are made through payroll deduction and eligible expenses are reimbursed on a weekly basis.

The above plans are reported in the Internal Services Fund.

Changes in the reported liability since July 1, 2010 resulted from the following:

	Beginning of Fiscal Year Liability	Current Year Claims and Changes in Estimates	Claim Payments	Balance at Fiscal Year-End
2011	\$ 772,380	6,814,806	(6,765,894)	821,292
2012	821,292	6,902,759	(6,884,482)	839,569

(10) **Area Education Agency**

The District is required by the Code of Iowa to budget for its share of special education support, media and educational services provided through the area education agency. The District's actual amount for this purpose totaled \$2,236,244 for the year ended June 30, 2012 and is recorded in the General Fund by making a memorandum adjusting entry to the financial statements.

Johnston Community School District
Notes to Financial Statements
Year ended June 30, 2012

(11) Construction Commitment

The District has entered into contracts totaling \$4,967,223 for the construction of an addition to Lawson Elementary, remodel of the high school elevator and for portable classrooms. As of June 30, 2012, costs of \$4,454,676 had been incurred against the contracts. The balance of \$512,547 remaining at June 30, 2012 will be paid as work on the project progresses.

Project	Contract Amount	Costs through June 30, 2012
Lawson Elementary School	\$ 4,464,473	4,439,469
High School Elevator	317,350	9,191
Portable Classrooms	185,400	6,016
	\$ 4,967,223	4,454,676

(12) Operating Leases

The District leases copy machines under noncancelable operating leases. Total costs for such leases were approximately \$70,217 for the year ended June 30, 2012. The future minimum lease payments for these leases are as follows:

Year ending June 30:	
2013	62,736
2014	60,094
	122,830

Johnston Community School District
Notes to Required Supplementary Information - Budgetary Reporting
Year Ended June 30, 2012

Basis of Presentation

The District operates within the budget requirements for school districts as specified by state law and as prescribed by the Iowa Department of Management. Budgets are prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

For the fiscal year beginning July 1, a proposed budget is adopted by the Board and filed with the County Auditor no later than April 15. The budget is certified by the County Auditor to the Department of Management.

Once adopted, the budget can be amended by the Board. The amendment must be published and a public hearing conducted prior to the amendment. Any amendments must be certified to the County Auditor no later than May 31. The proposed expenditure budget is advertised in the local newspaper, together with a notice of public hearing.

The legal level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is the functional area for a budgeted governmental, enterprise and private purpose trust funds in total, rather than by individual fund type. Formal and legal budgetary control is based on four major classes of expenditures known as functional areas. These four functional areas are instruction, support services, non-instructional programs and other expenditures. During the year ended June 30, 2012, expenditures did not exceed the amounts budgeted in any functional area. The Code of Iowa also provides that District expenditures in the General Fund may not exceed the amount authorized by the school finance formula. Authorized expenditures cannot exceed the lesser of the certified budget plus any allowable amendments, or the authorized budget, which is the sum of the District's cost for that year plus the actual miscellaneous income received for that year plus the actual unspent balance from the preceding year. Appropriations, as adopted and amended, lapse at the end of the fiscal year.

The District is required by the Code of Iowa to budget for its share of media, education services and special education support provided through the local area education agency. The District's actual amount for this purpose totaled \$2,236,244 for the year ended June 30, 2012.

Johnston Community School District

Statistical Section Table of Contents

The statistical section of the Johnston Community School District's comprehensive annual financial report presents detailed information as a context for understanding what the information presented in the financial statements, note disclosures and required supplementary information say about the District's overall financial health.

<u>CONTENTS</u>	<u>PAGE</u>
Financial Trends These schedules contain trend information to help the reader understand how the District's financial performance and well-being have changed over time.	70-88
Revenue Capacity These schedules contain information to help the reader assess the District's most significant local revenue sources, the property tax (or sales tax).	89-94
Debt Capacity These schedules present information to help the reader assess the affordability of the District's current level of outstanding debt and the District's ability to issue additional debt in the future.	95-101
Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.	102-106
Operating Information These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.	107-113

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial report for the relevant year. The District implemented GASB 34 in fiscal year 2003; schedules presenting government-wide information include information beginning in that year.

DEBT LIMIT

The amount of general obligation debt a political subdivision of the State of Iowa can incur is controlled by the constitutional debt limit, which is an amount equal to 5% of the actual value of property within the corporate limits, taken from the last County Tax list. The district's debt limit, based upon said valuation, amounts to the following:

Actual value of property, 2011:	\$ 3,055,537,525
	<u>0.05</u>
Debt Limit:	<u>\$ 152,776,876</u>

Total Direct Debt = \$ 36,360,000 or 23.8% of debt limit.

*Includes TIF valuation of \$174,649,210

GENERAL INFORMATION

The Johnston Community School District is located in central Iowa within the Des Moines Metropolitan area. Included within the District's 25,370 acres are the cities of Johnston and portions of Des Moines, Urbandale and Grimes. Transportation facilities are provided by U.S. Interstates 35 & 80, Iowa Highway 141, as well as numerous paved county roads. Commercial airline service is available at the Des Moines International Airport. Commercial development within the District has been greatly enhanced by the continued growth of the northwestern portion of the metropolitan area. Residential growth and recreational opportunities within the District have been enhanced by the construction of Saylorville Lake, a U.S. Corps of Engineers flood control dam impounding the Des Moines River.

The three major employers within the District are DuPont Pioneer, John Deere Credit, and Childserve. DuPont Pioneer is a leading developer and supplier of advanced plant genetics, providing hybrid seeds to farmers in more than 90 countries. With over 2,900 employees within the District, Pioneer's facilities within Johnston include the Central Division Offices, Plant Breeding Division, Pioneer Data Systems Division, and Green Meadows Limited. John Deere Credit provides retail, wholesale and lease financing as well as revolving credit to help facilitate the sale of John Deere agricultural, construction and forestry, and commercial and consumer equipment. ChildServe is a not-for-profit organization that partners with families to help children with special health care needs.

Continuing education centers within commuting distance include: Drake University, Des Moines; Grand View University, Des Moines; Des Moines University, Des Moines; Iowa State University of Science and Technology, Ames; Simpson College, Indianola; and Area XI Des Moines Area Community College, Ankeny.

Basis of Presentation - The Schedule of Expenditures of Federal Awards includes the federal grant activity of the Johnston Community School District and is presented on the accrual or modified accrual basis of accounting. The information on this schedule is presented in accordance with the requirements of OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

See accompanying independent auditor's report.

Johnston Community School District
Notes to Schedule of Expenditures of Federal Awards
Year Ended June 30, 2012

Note 1. Basis of Presentation

The accompanying schedule of expenditures of federal awards presents the activity of all federal financial assistance programs of the Johnston Community School District for the year ended June 30, 2012. All federal financial assistance received directly from federal agencies as well as federal financial assistance passed through other government agencies is included in the schedule. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, Audits of states, Local Governments and Nonprofit Organizations. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

Note 2. Significant Accounting Policies

For governmental funds, in accordance with the modified accrual basis of accounting, revenue from federal grants is recognized when they become both measurable and available. For proprietary funds, in accordance with the accrued basis of accounting, revenues from federal grants are recognized in the period they are earned. Expenditures of federal awards are recognized in the accounting period when the liability is incurred.

Note 3. Noncash Assistance

The schedule includes federal awards in the form of noncash assistance (commodities) received during the year in the amount of \$258,841 related to USDA Commodities grants provided by the U.S. Department of Agriculture passed through the Iowa Department of Education, CFDA No. 10.555.

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

To the Board of Education of
Johnston Community School District:

We have audited the accompanying financial statements of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of Johnston Community School District, Johnston, Iowa, as of and for the year ended June 30, 2012, which collectively comprise the District's basic financial statements listed in the table of contents, and have issued our report thereon dated October 29, 2012. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

Management of Johnston Community School District is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered Johnston Community School District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Johnston Community School District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Johnston Community School District's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Johnston Community School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, non-compliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of non-compliance or other matters that are described in Part IV of the accompanying Schedule of Findings and Questioned Costs.

Comments involving statutory and other legal matters about the District's operations for the year ended June 30, 2012 are based exclusively on knowledge obtained from procedures performed during our audit of the financial statements of the District. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

Johnston Community School District's responses to the findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs. While we have expressed our conclusions on the District's responses, we did not audit Johnston Community School District's responses and, accordingly, we express no opinion on them.

This report is intended solely for the information and use of the officials, employees and citizens of Johnston Community School District and other parties to whom Johnston Community School District may report, including federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

We would like to acknowledge the many courtesies and assistance extended to us by personnel of Johnston Community School District during the course of our audit. Should you have any questions concerning any of the above matters, we shall be pleased to discuss them with you at your convenience.

Independent Auditor's Report on Compliance with Requirements That Could Have A Direct and Material Effect on Each Major Program and on Internal Control over Compliance in Accordance with OMB Circular A-133

To the Board of Education of Johnston Community School District:

Compliance

We have audited Johnston Community School District's compliance with the types of compliance requirements described in the Office of Management and Budget (OMB) Circular A-133 *Compliance Supplement* that could have a direct and material effect on each of Johnston Community School District's major federal programs for the year ended June 30, 2012. Johnston Community School District's major federal programs are identified in Part I of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of Johnston Community School District's management. Our responsibility is to express an opinion on Johnston Community School District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether non-compliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Johnston Community School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on Johnston Community School District's compliance with those requirements.

In our opinion, Johnston Community School District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2012.

Internal Control Over Compliance

Management of Johnston Community School District is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered Johnston Community School District's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Johnston Community School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

Johnston Community School District's responses to the findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs. We did not audit Johnston Community School District's responses and, accordingly, we express no opinion on the responses.

This report is intended solely for the information and use of the officials, employees and citizens of Johnston Community School District and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

**Johnston Community School District
Schedule of Findings and Questioned Costs
Year ended June 30, 2012**

Part I: Summary of the Independent Auditor's Results

- (a) Unqualified opinions were issued on the financial statements.
- (b) No material weaknesses in internal control over financial reporting were disclosed by the audit of the financial statements.
- (c) The audit did not disclose any non-compliance which is material to the financial statements.
- (d) No material weaknesses in internal control over major programs were disclosed by the audit of the financial statements.
- (e) An unqualified opinion was issued on compliance with requirements applicable to each major program.
- (f) Major programs were as follows:
 - Clustered programs:
 - CFDA Number 10.553 - School Breakfast Program
 - CFDA Number 10.555 - National School Lunch Program
 - CFDA Number 84.027 – Special Education – Grants to States (IDEA, Part B)
 - CFDA Number 84.369 –Grants for State Assessment
- (g) The dollar threshold used to distinguish between Type A and Type B programs was \$300,000.
- (h) Johnston Community School District qualified as a low-risk auditee.

Part II: Findings Related to the Financial Statements

INSTANCES OF NON-COMPLIANCE:

No matters were noted.

**Johnston Community School District
Schedule of Findings and Questioned Costs
Year ended June 30, 2012**

Part IV: Other Findings Related to Required Statutory Reporting

- IV-A-12 Certified Budget – Expenditures for the year ended June 30, 2012 did not exceed the certified budget amounts.
- IV-B-12 Questionable Expenditures - No expenditures were noted that may not meet the requirements of public purpose as defined in an Attorney General's opinion dated April 25, 1979.
- IV-C-12 Travel Expense - No expenditures of District money for travel expenses of spouses of District officials or employees were noted. No travel advances to District officials or employees were noted.
- IV-D-12 Business Transactions - No business transactions were noted between the District and District officials or employees.
- IV-E-12 Bond Coverage - Surety bond coverage of District officials and employees is in accordance with statutory provisions. The amount of coverage should be reviewed annually to ensure that coverage is adequate for current operations.
- IV-F-12 Board Minutes - No transactions were noted requiring Board approval which had not been approved by the Board.
- IV-G-12 Certified Enrollment – A variance in the basic enrollment data certified to the Department of Education was noted.

Recommendation – The certified enrollment data should be corrected for students who exit the District.

Response – We will correct the certified enrollment in the future for students exiting the system.

Conclusion – Response accepted.
- IV-H-12 Supplementary Weighting – No variances regarding the supplementary weighting certified to the Iowa Department of Education were noted.
- IV-I-12 Deposits and Investments - No instances of noncompliance were noted with the deposit and investment provisions of Chapter 12B and 12C of the Code of Iowa and the District's investment policy.
- IV-J-12 Certified Annual Report - The Certified Annual Report was filed with the Department of Education timely and we noted no significant deficiencies in the amounts reported.
- IV-K-12 Categorical Funding – No instances were noted of categorical funding used to supplant rather than supplement other funds.

 Schedule of Findings and Questioned Costs
 Year ended June 30, 2012**

IV-M-12 Statewide Sales, Services and Use Tax – No instances of non-compliance with the use of the statewide sales, services and use tax revenue provisions of Chapter 423F.3 of the Code of Iowa were noted.

Pursuant to Chapter 423F.5 of the Code of Iowa, the annual audit is required to include certain reporting elements related to the statewide sales, services and use tax revenue. Districts are required to include these reporting elements in the Certified Annual Report (CAR) submitted to the Iowa Department of Education. For the year ended June 30, 2012, the District reported the following information regarding the statewide sales, services and use tax revenue in the District's CAR:

Beginning balance		\$	10,952,248
Revenues/transfers in:			
Sales tax revenues	\$	5,123,925	
Other local revenues		31,844	5,155,769
			<u>16,108,017</u>
Expenditures/transfers out:			
School infrastructure construction		8,957,338	
Instructional staff services		564,336	
Transfers to other funds:			
Debt service funds		2,908,876	12,430,550
			<u>12,430,550</u>
Ending balance		\$	<u><u>3,677,467</u></u>

For the year ended June 30, 2012, the District reduced the following levies as a result of the moneys received under Chapter 423E or 423F of the Code of Iowa:

	<u>Rate of Levy Reduction Per \$1,000 of Taxable Valuation</u>		<u>Property Tax Dollars Reduced</u>
Debt service levy	\$	1.55000	2,908,876
