POLICY TITLE STUDENT TRANSPORTATION FOR EXTRACURRICULAR
ACTIVITIES No. 711.2

The board in its discretion may provide school district transportation for extracurricular activities including, but not limited to, transporting student participants and other students to and from extracurricular events.

Students participating or attending extracurricular events, other than those held at the school district facilities may be transported to the extracurricular event by school district transportation vehicles or by another means approved by the Activities/Athletic Director.

The school district will notify students and parents if transportation will not be provided for extracurricular activities. If no school district transportation will be provided, transportation to and from the activities will be the sole responsibility of the student/parent and the school district will not be liable or responsible for the transportation.

Students, who are provided transportation in school district transportation vehicles for extracurricular events, will ride both to and from the event in the school vehicle unless arrangements have been made in writing with the Activities/Athletic Director prior to the event. A student's parent may personally appear and request to transport the student home from a school-sponsored event in which the student traveled to the event on a school district transportation vehicle.

It is the responsibility of the Chief Financial Officer to make a recommendation to the board annually as to whether the school district will provide the transportation authorized in this policy. In making the recommendation to the board, the Chief Financial Officer will consider the financial condition of the school district, the number of students who would qualify for such transportation, and other factors the board or Chief Financial Officer deem relevant.
