POLICY TITLE ELECTRONIC COMMUNICATIONS

No.901.1

The district's electronic communication systems are owned and maintained by the district and are to be used for district and/or school purposes only. Therefore, the district has an interest and a right to determine how these systems are used.

Any views expressed by individual users via any of the district electronic communication systems are not necessarily those of the district nor do they bind the district in any way.

The Director of Technology or designee is authorized to develop administrative procedures to implement this policy. All users of the district's electronic communication systems shall comply with applicable laws and district policies regarding acceptable use as stated in Administrative Regulation 401.13R1 Staff Technology Use and Policy 605.6 Internet Appropriate Use Regulations, for students. The district reserves the right to monitor and inspect the use of its electronic communications systems in accordance with applicable law. Users shall not have any expectation of privacy in the district's electronic communications systems, including any electronic messages or other materials created, transmitted, or stored using such systems.
