

Counselor Corner – March 2021

The March counselor lesson focuses on See Something, Say Something. The purpose of this lesson is to teach students warning signs of violence, empowers students to act immediately to take it seriously and encourages them to share information with a trusted adult.

<https://www.sandyhookpromise.org/> is a helpful resource with lots of information for educators and parents pertaining to this topic.

The Summit Culture Committee researched notable people and places in Black History. Committee members shared their research with the school by creating a google slide with information which was displayed throughout our school on the televisions in our hallways and communities. Students were able to learn about a new person or place each day during the month of March. The next Summit Culture Committee meeting is Thursday, March 4th at 7:35am in the Library/Media Center.
