

## School Year Breaks

KTC child care is open on early dismissal days, non-school days (NSD), and school breaks.

### Wednesday Early Dismissals

KTC offers childcare on Wednesdays during the one hour early dismissal. Students already registered for KTC on Wednesdays will be provided care at the regular afternoon cost. Families requesting care only on Wednesday afternoons need to register for KTC online through [Eleyo](#), pay the registration fee, and register with a pick your days contract. Fees for weekly one hour early dismissals are the one-time weekly afternoon fee. Please refer to the school calendar for one hour early dismissal dates.

### Non-School Days (NSD)

On days where there are three-hour early dismissals or scheduled non-school days, families can register for Non-School Day (NSD) care on [Eleyo](#). Non-school day registration on Eleyo is separate from the child's contract. To register for non-school days, first log in to your KTC Eleyo account. Under "Your Accounts", click on "Kids Connection #xxxx>." Then, under "Account Management" to the right, click on "Register Non-School Days." To register for a non-school day, first choose which child is attending, then choose the season (ex. 2018-19 school year), which non-school day your child will attend, and, via the pull-down arrow, choose the correct school. To finish, agree to the terms and conditions and click "Finish Registration." You will receive an email confirmation once the NSD days have been approved. **Registration for non-school days closes online ten days prior to the date of the non-school day. There is a late sign-up fee of \$5 if you sign-up after the deadline.** During Thanksgiving, winter and spring break the location will be by your child's grade level instead of school attended.

### School Breaks

KTC offers childcare during Thanksgiving, winter, and spring breaks. Treat school breaks as NSD dates when registering for childcare. Keep in mind not all dates may be available as KTC is closed for holidays. Breaks follow the ten days prior to the date registration deadline just like typical NSD dates.
