

# **JCSD ONLINE LEARNING STUDENT EXPECTATIONS**

- **Students are expected to work regularly on their course work, including checks for understanding and assessments. It is the student's responsibility to complete assignments on time and to the best of his/her ability.**
- **Students attending in the 100% online program are Johnston Community School District students and are expected to follow all student guidelines in the Student/Parent handbooks.**
- **Students should contact their teacher if they have questions, are having difficulty or need support.**
- **Students should read all emails and communication provided by their teachers.**
- **Student should respond to teacher contacts including emails or phone calls within 24 hours.**
- **Students should submit work according to the suggested weekly and monthly pace.**
- **Students should participate in all live zoom support sessions, teaching sessions & class discussions.**
- **Students will receive weekly contacts from their teacher. These contacts may be via the messenger program in the software program, through a zoom advisory meeting, small group checking zoom or directly from the teacher.**
- **Reach out to your teacher if you have questions about course material.**

# **JCSD ONLINE LEARNING PARENT EXPECTATIONS**

Online courses and work completion are different from completing class work in a school building. The following points are provided to assist you as a parent in supporting your child in online learning. Our online teachers will work with you as partners to support your child's learning during the 2020-2021 school year.

- If you or your child have questions, contact the online teacher, don't wait.
- Please read all communication from the online teacher and if your child is able to read, have them read all communication as well.
- Your child should respond to the teacher to acknowledge he/she has received the information and understands the information.
- As a parent help your child manage their time and encourage your child to stay on track with the weekly pacing providing in the online courses. You have the flexibility to develop a study schedule which meets your family's needs as the delivery is through the software program.
- Work with your child to develop a study schedule and create a study or learning space in your home for your child to work.
- Support and assist your child with his/her learning but do not do the work for them.
- Encourage your child to have regular contact with his/her teacher and to contact the teacher with questions, for support and feedback.
- Contact your child's teacher if you have questions or concerns about your child's learning.
